Nishant Tomar

Product Design Intern

My focus is always to hit the right spot between user and data to provide the right solution to the right problem. My specialization lies in designing mobile and website user interfaces professionally along with that I also have some knowledge of the code.

UI/UX Design Intern

- Worked closely with engineering, developer teams and stakeholders to improve the overall user experience of Version 2 and made some iteration in version 1 which resulted in getting their first customer onboarded.

User Experience Designer

- Conducted User Survey, designed wireframes, Mockups, developed fully functional Prototypes and tested user interface and user flow to ensure quality

Visual Designer

- Responsible for designing user interface mockups based on UX requirements

- Worked on multiple design iteration to ensure the client was satisfied with results

Visual Designer

- College Startup associated with BITS Goa

- Designed the first Iteration for it's web version

Visual Designer (Freelance)

- Researched for the user's need to make User Experience Better

- Designed user interface mockups visuals for application

UI Designer (Freelance)
